*Tampa, Florida —June 16, 2008*

---

Modelithics, Inc. ([www.modelithics.com](http://www.modelithics.com)) has released an enhanced version of their popular CLR Library™, significantly increasing the range and number of components represented by Modelithics highly scalable models. With this update Modelithics continues to expand its collection of well-documented substrate- and part-value scalable surface-mount component models. This version adds 20 new models, each representing entire ranges of values for capacitor, resistor and inductor components from popular vendors like ATC, Murata, Johansson, KOA Speer and Vishay. Modelithics continues to deliver on their promise to provide *Precision Measurements and Models You Trust* to design engineers.

The upgrade will be forwarded, free of charge to all CLR Library customers currently under a Modelithics Platinum Maintenance contract. For further information and to request a free trial of the Modelithics CLR Library, NLT (Non-Linear Transistors) Library, SLC (System Component) Library or NLD (Diode) Library contact Modelithics at [Sales@Modelithics.com](mailto:Sales@Modelithics.com) , or click on the free trial link you'll find at: <http://www.modelithics.com>.

#### **About Modelithics, Inc.**

Modelithics, Inc. ([www.Modelithics.com](http://www.Modelithics.com)) was formed in 2001 to address the industry-wide need for high-accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Current products include the *CLR Library™*, which contains measurement-based *Global Models* for a multitude of commercially-available passive component families, the *NLD Library™* (non-linear diode models), the *SLC Library™* (or *SLC*), (system level component models) and the *NLT Library™* (non-linear transistor models). Modelithics' services also address a wide range of custom RF and microwave measurement and modeling needs.

*Modelithics® is a registered trademark of Modelithics, Inc. CLR Library™, NLD Library™, SLC Library™ and NLT Library™ are also trademarks of Modelithics, Inc.*
