USF CONNECT Welcomes Microcide, Inc. to the Tampa Bay Technology Incubator

October 13, 2009

USF CONNECT is pleased to announce the recruitment of Microcide, Inc. to the Tampa Bay Technology Incubator. The company comes to the incubator from the Detroit area and will employ a staff of seven.

The company develops and markets non-toxic, safe and environmentally friendly biodegradable anti-microbial products for personal care, health care, agriculture and food processing industries to prevent infections and food spoilage. The company holds 8 patents and 5 trademarks and has been funded by NIH, NASA and USDA.

Microcide joins nearly twenty other companies currently located at the Tampa Bay Technology Incubator. For more information regarding Microcide, Inc. and USF CONNECT please visit www.usfconnect.org or www.microcide.com.
