

FCoE-BITT: Biotechnology Development and Testing Facility

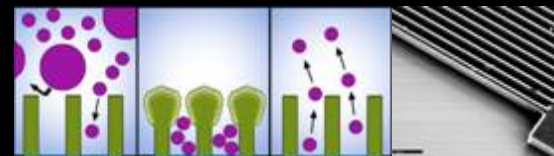

Leigh West
813/ 974-6270
www.bitt.usf.edu

Bacteria and mammalian cell
culturing and testing to BSL2

- Standard molecular biology-based diagnostic assays

Device fabrication including mini-,
micro-, nano-machining, and atomic
layer deposition

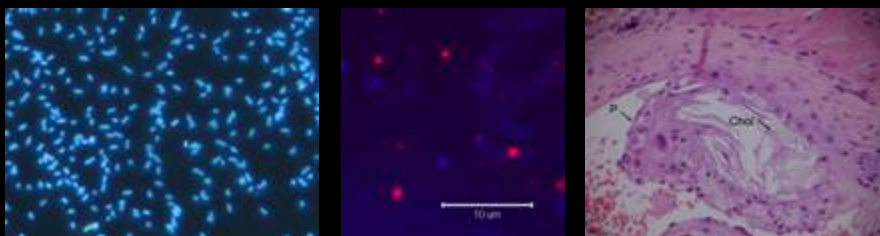

Microscopic imaging and analysis of
cells and devices

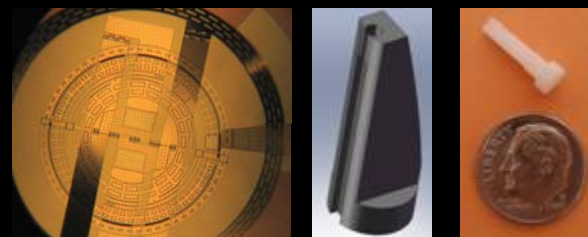

**Comprehensive services and
flexibility to meet your R&D
needs**

**New Device Developed and Tested for
Cell for Particle Capture and Release**

Drug/Sensor Development and Testing

Mini-, Micro-, Nano-, and Molecular Fabrication of Devices

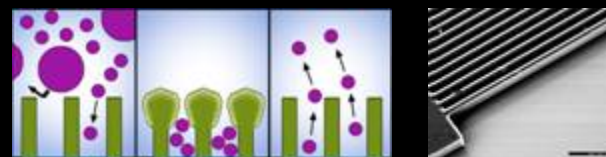

FCoE-BITT: Biotechnology Development and Testing Facility
