**Local tech scene given fresh look** Scrambling to find information on Florida's high-tech scene? The Florida High Tech Corridor Council and the Tampa Bay business publication Maddux Business Report just released the new version of florida.HIGH.TECH magazine with a feature on "10 faces" to watch in technology. Among them are Dr. Luis Garcia-Rubio of the University of South Florida, the founder of Claro Scientific, which is marketing new ways to test human blood for diseases; Larry Langebrake, who heads St. Petersburg's Marine Technology Program at SRI International; and Carolyn Fries, founder and CEO of St. Petersburg's Guided Particle LLC, which develops ways to print on the molecular level.
